Wholesale Price List  
Spring 1927

**JOSEPH VAVRA**

BOX 728

Huntington Beach, California

## **TO THE TRADE**

All stock offered in this list is of our own growing and we believe we have ample quantities of all varieties to take care of reasonable demands. However, our customers are strongly urged to place their orders as early in the season as possible to make sure of getting them filled in full. Every year our stocks of a considerable number of varieties are booked up long before shipping actually starts.

Our retail catalogue will be issued about the first of the year; this will have much more complete descriptions and will also list additional varieties of which we have comparatively smaller quantities.

### **TERMS OF SALE**

All quotations in this list are for strong divisions of field grown roots; we do not ship undivided clumps.

Three roots of one variety will be furnished at the dozen rate, and twenty-five at the hundred rate; these prices are f. o. b. Huntington Beach, no charge for packing.

When less than three roots of a variety are ordered they will be charged for at our regular retail rates, and will be shipped carriage charges prepaid.

Remittances should be made by draft, money order or check. Do not send stamps or currency unless the letter is registered. This is for your protection as we cannot be held responsible for money lost in the mail.

The prices quoted in this list are allowed only to those regularly established in any of the Horticultural Trades, so when ordering kindly use your business stationery or state your trade connections in order to avoid unnecessary delay.

### **NON-WARRANTY**

While we exercise the greatest care to have our stock true to name, and hold ourselves in readiness, upon proper proof, to replace any found otherwise, we give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out and will not be in any way responsible for the crop.

## OUR 1927 INTRODUCTIONS

---

We are bringing out this season two new dahlias of our own origin and one we received from France two years ago. All of these varieties are of decided merit and each one is an acquisition in its type and color.

Particularly we wish to stress the fact that all three are well suited for commercial use and advise growers of cut flowers to get a stock now.

8. **PRINCESS ALINE:** (decorative) Clear rosy pink, shading to a lighter edge. This is one of the best dahlias for cut flower use we have ever grown and it has all of the good points required for florists' use. The flowers are not particularly large, but are of a perfect ball-shaped formation, with slightly quilled petals somewhat resembling the hybrid show type; the centers are very full and remain so through the season. The coloring is a most pleasing shade of bright pink and looms up exquisitely under artificial light, making it very effective as a decoration either in the day time or at night. The petals are firm and solid, and the flowers keep fully as long as any variety in our collection, both on the bush or when cut; in fact they never seem to wilt but rather drop the petals when they are old. The stems, of course, are perfect, and freedom in bloom and habit of the bush are all that can be desired. We can conscientiously recommend this new variety to all florists because it is bound to be a wonderful seller as a cut flower.  
\$2.50 each, \$20.00 per dozen, \$150.00 per 100.
281. **MRS. JOHN BAZANT:** (decorative) Nearly white, blending to very faint canary yellow at the center. Good white dahlias, suitable for cut flower purposes, are not any too numerous; and in this new variety we have a decided acquisition to our list of commercial sorts. The flowers are of a loose, wavy formation, and are perfectly double to the end of the season. Although not a pure white, it may be used for any purpose where white flowers are needed, as there is just enough of the faint yellow shading to relieve the deadness of a clear white; and the slight tinge of color really enhances the beauty of the bloom. The flowers keep a long time after cutting and are produced very freely with erect, wiry stems on bushes of medium height.  
\$1.00 each, \$8.00 per dozen, \$60.00 per 100.
13. **COURONNE D'OR:** (decorative) Old gold with an old rose reverse. This is a new French introduction that has proven to be one of the finest dahlias we have ever received from Europe and one that will be as popular as any when it becomes generally known. The flowers are very large and very deep, perfectly double and carried straight on long, stiff stems; they can be cut three feet long with very little disbudding. It is very free in bloom for so large a flower, with a compact bush of about average height. The coloring is very effective; the old rose on the reverse shows through the varying shades of gold, and as the petals twist it reflects itself to the face of the flower in a most charming combination. This new variety will make a striking showing on any exhibition table, is a beautiful ornament in the garden, and makes an ideal cut flower for large decorations. Our stock is rather limited and we can offer only a comparatively few roots this season.  
\$5.00 each, \$40.00 per dozen, \$300.00 per 100.

# GENERAL LIST

| Variety<br>Number | Name—Class—Color   | Retail<br>Each | Wholesale<br>Doz. 100 |

## DAHLIA SEED

Raising dahlias from seed is becoming more and more popular every season both by commercial growers and home gardeners; probably the main reason for this is because a very high grade of dahlia seed is now available from Southern California at reasonable prices.

A few years back the only seed obtainable was European grown and was produced chiefly from single varieties, because, in countries where frosts kill the plants early in the season, single dahlias are about the only ones which will produce seed.

The climatic conditions in Southern California are such that dahlia seed produced here is superior to that grown anywhere else. Because of the long growing season, the seed need not be harvested until late in the year, usually during December; this condition allows the best and most double varieties to form seed, which is not possible in localities where the growth is stopped earlier in the season.

All our seed is carefully cleaned and hand picked, assuring the highest possible germination when properly grown. It is not hand polenized as we depend entirely on natural agencies for crossing the pollen from different varieties.

**STANDARD GRADE.** This is the bulk of our crop and is gathered only from the best types grown in our main fields. Price in bulk \$1.00 per trade packet; \$2.00 per ounce; \$24.00 per pound.

|                                  |                   |
|----------------------------------|-------------------|
| Regular retail packets: 25c size | \$2.00 per dozen. |
| 50c size                         | \$4.00 per dozen. |
| \$1.00 size                      | \$8.00 per dozen. |

**EXTRA SELECTED MIXED.** We believe this to be as choice a grade of seed as can be produced anywhere, no matter how widely advertised. It is harvested from special beds where only the largest and best dahlias are planted in small blocks, giving ample opportunity for natural crossing. No singles, collarettes or pompons are grown anywhere near these beds. Price in bulk \$1.00 per trade packet; \$4.00 per ounce.

|                                  |                   |
|----------------------------------|-------------------|
| Regular retail packets: 50c size | \$4.00 per dozen. |
| \$1.00 size                      | \$8.00 per dozen. |

**SPECIAL GRADE.** In this grade the different varieties are kept separate and the seed is sold under the name of the parent plant. A list of the dahlias from which seed will be available can be had upon special request about January fifteenth. Put up only in packets at \$1.00 each, net.
